Chemical & Metallurgical Engineering became Chemical Engineering in August 1946.

Chemical & Metallurgical Engineering was the successor to Metallurgical & Chemical Engineering, which, in turn, was a consolidation of Electrochemical & Metallurgical Industry and Iron & Steel Magazine. The magazine was originally founded as Electrochemical Industry.

McGRAW-HILL PUBLISHING COMPANY, INC., NEW YORK CITY

Volume LIV

January to December, 1947

GENERAL ALPHABETICAL INDEX

A	
Absorption—evaluation of absorber operating efficiency (A).....	270
Accidents:	
Dead men do tell tales. Crosby Field Mar.....	*118
Death by the granulator. Crosby Field Feb.....	*126
Death on the desert. Crosby Field Jan.....	*162
Acetic acid—acetic acid and chlorine vs. materials of chemical plant construction.....	241
Acid, fatty, processing. Marsel & Allen June.....	164
Aerolein production. F. G. Watson. Dec.....	*167
Adhesives:	
Adhesive (A).....	Nov. 178
Labeling adhesives (A).....	Apr. 168
Synthetic rubber adhesives (A).....	Mar. 163
Wood-bonding adhesive (A).....	Jan. 162
Africa—South African chemical plants developing ways to make soap from sewage.....	Feb. 262
Agitators—mass and heat transfer in agitator systems. Uhl & Mack.....	Oct. *115
Performance and design of agitators. Uhl & Mack.....	*119
Agriculture—U. S. agricultural research (N).....	Aug. 89
West wants more farm chemicals.....	Sept. 112
Agricultural chemical (A).....	Feb. 174
Air separation—principles and technology report.....	Mar. *126
Alcohol:	
Dihydric alcohol.....	Oct. 176
Ethyl alcohol for synthetic rubber—recent advances in fermentation report.....	Dec. *141
Isopropyl alcohol solution make-up chart. W. C. Friebe (P.N.).....	June *119
Production of alcohol and solvents 1939-1946 (chart & table).....	Feb. 114
Tax on alcohol (N).....	July 84
Western producers of industrial alcohol.....	Sept. 162
Aliphatics, synthetic (A).....	Sept. 256
Alkalis—production fails to meet requirements (charts & tables).....	Feb. 110
New mercury cell makes its bow. W. C. Gardiner.....	Nov. *108
Alliecin from garlic (A).....	Sept. 266
Aluminum:	
Aluminum as a material for handling hydrogen peroxide. Reichert & Pete.....	*213
Aluminum as a material for sulphur dioxide equipment. Verink, Wagner & Brown.....	Aug. 210
Aluminum and silicon alloys from clay (A).....	Apr. 260
Coating for aluminum (A).....	Nov. 182
Growth of Northwest chemicals and non-ferrous metals industries (chart).....	Sept. 169
Outdoor surface coating (A).....	Apr. 161
Roofing of aluminum.....	Sept. 168
Aluminum bromide, anhydrous.....	June 169
Americium et al (A).....	Mar. 254
American Chemical Society—national meeting (N).....	Oct. 179

Amino acid (A).....	Dec. 186
Ammonia—complete ammonia plants. C. O. Brown.....	May *124
Ammonia liquor used as fertilizer Dec.....	131
Synthetic ammonia produced in the West.....	Sept. 99
Ammonium sulphate—Indian government imports American engineering skill to design and construct ammonium sulphate plant. J. V. Van Denburg, Jr.....	Aug. *92
Antibiotic—recent advances in fermentation report.....	Dec. *141
Antimalarial (A).....	Jan. 162
Argentina:	
Change in customs procedure.....	Jan. 262
Global engineering. C. L. Mantell (c).....	Aug. 190
Soda ash more plentiful.....	Dec. 218
Sulphur imports limited.....	June 260
Asphalt-rubber mixtures (A).....	Mar. 272
Associations—directory of professional, scientific, technical and trade associations and societies.....	July 234
National engineering society. J. G. Henderson (c).....	Jan. 182
Atomic Energy Commission offers heavy water.....	May 208
Atomic Power:	
Atomic activities.....	Oct. 78
Atomic energy expansion program underway (N).....	July 190
Atomic power from shale oil.....	May 294
Atomic power plants (A).....	Mar. 258
Aug.....	252
Atomic timetable (N).....	Nov. 78
Chemical aspects of atomic energy (A).....	Jan. 246
Engineering and economics of atomic power. J. H. Lum.....	Oct. *122
Equation of U 235 fission (A).....	June 264
First peacetime atomic pile going up at Brookhaven.....	Sept. 178
Industry's stake in atomic energy. Robert Colborn.....	Mar. *96
Life insurance for atomic workers (ed).....	Oct. 127
Monsanto building atomic research unit in Ohio (N).....	Aug. *176
Non-atomic benefits from atomic engineering (A).....	Apr. 278
Nuclear notes (A).....	Jan. 240
Australia:	
Alkali plant will be expanded.....	July 212
Chemical engineering position open Mar.....	268
Chemical industry. Herbert Leopold.....	Feb. 197
Chemical industry, expanded in war years, being further increased.....	May 226
Chemical industry expanding despite shortages.....	Feb. 208
Lumbago oil developed.....	Jan. 262
Monsanto will expand branch.....	Dec. 214
New weed killer plant.....	Aug. 196
Producing plastics.....	July 214
Slow to develop postwar chemical outputs.....	Mar. 202
Strikes close chemical plants.....	Mar. 206
Uranium minerals sought.....	June 200
Zinc oxide to be manufactured.....	Oct. 206
Austria—exports of nitrogen fertilizer expected.....	Sept. 202

Awards:	
Celanese Corp. sets up chemical engineering award (N).....	Oct. 189
Chemical Engineering Achievement award goes to Merck (N) Oct. 179 Dec.....	*110
Chemical Engineering Achievement to Merck & Co. for distinguished service to humanity.....	Nov. *94
Chemical Engineering Achievement award offered.....	May *142
Priestley Medal awarded to Prof. W. K. Lewis (N).....	Oct. *179
B	
Bark products.....	July *159
Belgian Congo—production of uranium.....	Sept. 294
Benzene—reaction of vinyl ethers and enters with benzene (A).....	July 264
Benzol—how it's chlorinated. J. A. Lee.....	Nov. *118
Benzonitrile.....	Sept. 167
Biochemical engineering (ed).....	May 166
Biochemical engineering. O. A. Hougen (c).....	July 202
Biochemical engineering case study. D. Kirkpatrick.....	Nov. *94
Bleach, household.....	Aug. 164
Bleaching clay.....	Oct. 170
Bleaching clay (A).....	Dec. 178

Book Reviews:	
Aluminum cartel. Louis Marlio.....	Aug. 272
Application of differential equations to chemical engineering problems. Marshall & Pigford.....	June 277
ASTM methods chemical analysis of metals.....	July 270
Atomic theory for students of metallurgy. Wm. Hume-Rothary.....	July 272
Buna rubber—the birth of an industry. F. A. Howard.....	Nov. 287
Calculation of analytical chemistry. Hamilton & Simpson.....	July 272
Chemical facts and figures. M. F. Crass, Jr.....	Mar. 277
The chemical senses. R. W. Moncrieff.....	Aug. 274
Chemistry for the executive. R. K. Strong.....	Mar. 277
Chemistry of the carbon compounds. Victor von Richter.....	July 270
Chemistry of commercial plastics. R. L. Wakeman.....	Oct. 270
Chemistry of heterocyclic compounds. A. A. Morton.....	July 270
Concise chemical and technical dictionary ed by H. Bennett.....	Sept. 273
Drying oils thinners and varnishes. J. S. Remington.....	Nov. 262
Electronic theory of acids and bases. Luder & Zuffanti.....	May 261
Encyclopedia of hydrocarbon compounds comp. by J. E. Faraday.....	May 304
The engineer at law. C. B. & J. R. McCullough.....	Sept. 273
English-Spanish chemical and medical dictionary. Morris Goldberg.....	Oct. 270
Fatty acids, their chemistry and physical properties. K. S. Markley.....	Oct. 263

- Ferrous metallurgical design. Hollomon & Jaffe. July
Fuels, combustion and furnaces. John Griewold. Oct.
General chemistry. E. P. Schoch & others. July
German-English science dictionary. Louis de Vries. Apr.
German plastics practices. DeBell, Goggin & Gloor. May
Government statistics for business use. Hauser & Leonard. Mar.
Industrial carbon. C. L. Mantell. Apr.
Industrial republic. P. W. Litchfield. Apr.
Industrialization of Latin America ed. by Lloyd Hughlett. Feb.
Introduction to the chemistry of the silicates. E. G. Rochow. Aug.
Manual for process engineering calculations. Loyal Clarke. Nov.
Marketing drugs and cosmetics. Bader & Pickler. July
Wolfgang Pauli. Apr.
Matthew's textile fibers ed. by H. R. Mauersberger. July
Mechanisms of reactions at carbon-carbon double bonds. C. C. Price. June
Men and volts at war. J. A. Miller. Oct.
Meson theory of nuclear forces. Modern organic finishes. R. H. Wampler. Feb.
Natural perfume materials. Naves & Masuyer. Sept.
New fibers. Sherman & Sherman. July 270.
Nuclear physics tables and an introduction to nuclear physics. Matlack & Fluegge. June
Oil for victory by the editors of "Look". Apr.
Organic chemistry. Paul Karrer. July
Organic reactions ed. by Roger Adams. July
Organic reagents for organic analysis. July
Organic syntheses ed. by Homer Adkins. June
Personal adjustment. Knight Dunlap. Feb.
Petroleum production vol. 2. P. J. Jones. Sept.
Petroleum production engineering. oil fields development. L. C. Uren. Feb.
Plastics business. Simonds & Sherman. Apr.
Plastics handbook for product engineers comp. by John Saaso. May
Plastics, theory and practice. Windling & Haasche. Aug.
Prices and business in 1947. H. C. Kuthe. Sept.
Principles of textile converting. Irving Teplick. July
Problem of reducing vulnerability to atomic bombs. A. J. Conner. July
Radiant heating. T. N. Adlam. Mar.
Rare-earth elements and their compounds. Yost, Russell & Garner. June
Russian-English chemical and technical dictionary. Ludmilla I. Callahan. July
Scientific instruments ed. by H. J. Cooper. July
Ship explosions at Texas City. Apr. 16 and 17, 1947 and their results. George Armistead, Jr. Oct.
Smith's college chemistry. W. F. Ehret. July
Statistical quality control. E. L. Grant. Jan.
Strategic minerals. J. H. DeMille. Oct.
Talbot's quantitative chemical analysis rev. by Hamilton & Simpson. July
Technology of adhesives. John Delmonte. May
Treason's peace—German dyes and American dupes. H. W. Ambruster. Nov.
Tungsten. K.C. Li & Chung Yu Wang. June
Unit processes in organic synthesis. F. H. Groggins, et al. Aug.
Water soluble gums. C. L. Mantell. Nov.
Water supply and sewage. E. W. Steel. Nov.
What industry owes to chemical science. Feb.
Borax—Western production of borax and borates. Sept.
Boring solutions—suspending capacity (A). May
Brazil:
Nitrate deposits found in Bahia. Sept. 202
Pulp paper mill in Monte Alegre. Apr. 208
Requires larger imports of alkalis. Dec. 314
To develop fertilizer materials. May 334
Bristles—casein for brush bristles. Mar. 308
Bromine—chemicals from the Dead Sea. Ze'ev Halperin. June
SO₂ control problem solved in sea water bromine plants. Porter Hart. Oct. 102
Business—what's ahead for American business. Keener & Wilson (charts). Feb. *94
Butanol acetone—recent advances in fermentation report. Dec. *141
Butylene glycol—recent advances in fermentation report. Dec. *141
C
Calcium carbide reducer (A). Apr. 290
Canada:
French company to make chemicals. June 198
New chlorine plant to be built. Aug. 204
Sodium sulphate output to be increased. Aug. 202
Carbon:
Carbon, graphite used in handling sodium chloride. L. C. Werking. Nov. 218
Carbon isotopes (A). Jan. 159
Carbon, graphite and chlorine used in handling chlorine. L. C. Werking. Feb. 226
Flowsheet for solvent recovery with activated carbon. Jan. *136
Handling sulphur dioxide with carbon and graphite. L. C. Werking. Sept. 222
600 percent increase in heavy carbon (A). Sept. 264
Solvent recovery with activated carbon. Jan. *98
Carbon blacks—conductivity measurements of carbon blacks (A). Jan. 254
New carbon black process used by rubber unit (N). Jan. 178
Carbon dioxide—absorption with ethanol amines (A). Sept. 268
Carboys—vacuum dispenser for discharging carboys. J. B. Whittem (P.N.). Mar. *122
Casein for brush bristles. Mar. *108
Catalysts—magnetochemical study of catalysts (A). Apr. 276
Vanadium oxide catalyst (A). May 294
Catalytic converters (A). June 262
Cathodic protection symposium. Nov. 220
Caustic Soda:
Distribution and production of caustic soda 1921-1946 (charts & tables). Feb. 110
New Mathieson mercury cell has certain advantages over German cells. W. C. Gardiner. Nov. *108
Western producers of caustic soda and chlorine (table). Sept. 97
Cement—corrosion resistant cement production. June *110
Cement, emulsion (A). Dec. 182
Cement, vulcanizing. Sept. 170
Centrifugals—process engineer's guide to the centrifugal compressor. I. J. Karasik, pt. 1, Oct. *110; pt. 2, Nov. *132; pt. 3. Dec. *126
Centrifugal separator costs. Henry Eckhardt. May 121
Ceramics:
Chemical porcelain used for handling sodium chloride. J. S. Chowning. Oct. 214
Chemical porcelain used in handling wet and dry chlorine. J. S. Chowning. Jan. 214
Glass and ceramics used to handle hydrogen peroxide. Reichert & Pete. Apr. 218
Western glass and ceramic industry. Sept. 115
Charcoal—new process for wood distillation (A). Jan. 238
Chemical Engineering Achievement award. May *142; (N) Oct. Dec. *110
Chemical Engineering Achievement award to Merck & Co. for distinguished service to humanity. Nov. *91
Chemical Engineering:
New developments in curricula (A). Apr. 284
Salaries for young chemical engineers. E. C. Fetter. June *109
Technical men in war (N). Sept. 82
Top rank in industry (A). Oct. 248
Chemical Engineering Reports:
Achieving process improvements. F. H. Swesey. June *121
Air separation—principles and technology. Mar. *126
Going to full scale with fewest headaches. F. H. Swesey. Oct. *121
Ion exchange. July *123
Management's role in planning research. D. B. Hertz. Aug. *123
Oxygen, past, present and prospects. Jan. *125
Pacific progress report No. 5. Sept. *91
Process equipment cost estimation. May *107
Recent advances in fermentation. Dec. *141
Recent developments in fuel technology. Apr. *127
Chemical Industries Exposition—review. Nov. *138
Chemical Industry:
Chemical data index by the U. S. Dept. of Commerce (N). Aug. 82
Chemical engineering indexes for industrial consumption of chemicals (table). Feb. 95
End uses of chemicals (tables). Feb. 304
Apr. 312
International outlook—Russia, Mexico, France, China, Great Britain, India, Germany, Australia, Spain. Feb. *100
Pacific Coast—more people, more plants, more markets for process industries. Callahan & Cosgrave (charts). Sept. *92
Production records broken (ed). Aug. 119
75 years of American chemical progress. July 96
Shortages of chemicals (N). May 94
U. S. production of chemicals, yearly totals, 1935-1945. Mar. 296
What's ahead? F. H. Swesey. Aug. 99
What's ahead for American business. Keener & Wilson (charts). Feb. *94
World chemical survey (N). Aug. 82
Chemical Market Research Assn. meets (N). Oct. 184
Chile—first convention of engineering students (A). Feb. 278
Nitrate output to be larger. June 202
China—caustic soda for use in emulsifiers for insect killing sprays. July *212
Chemical industry. A. W. Jessup. Feb. 103
Chlorine:
Acetic acid and chlorine vs. materials of chemical plant construction. May 241
Hydrochloric acid electrolysis in Germany. W. C. Gardiner. Jan. *100
New Mathieson mercury cell has certain advantages over German cells. W. C. Gardiner. Nov. *108
Wet and dry chlorine vs. materials of chemical plant construction—symposium pt. 1, Jan. *211; pt. 2, Feb. *219; pt. 3. Mar. *213
Western producers of caustic soda and chlorine (table). Sept. 97
Civilian Production Administration—New requirements (N). May 94
Office of Materials Distribution takes over. June 80
Cleaning:
Cleaning chemical. July 166
Cleaning compound. May 188
Industrial cleaners. June 157
Metal cleaners (A). Dec. 182
Coatings:
Improved finishes (A). Oct. 242
Liquid-plastic coating. Oct. 170
Masonry coating. Sept. 170
Protective coatings for sulphur dioxide plants. Aug. 214
Protective coatings used in handling acetic acid and chlorine. May 242
Surface coating (A). Nov. 175
Synthetic coating. Aug. 168; (A) Dec. 186
Cochin to produce activated carbon. May 224
Coke and Coal Products:
Coal raises interest FPC (N). May 96
Continuous fractionation of tar acids (A). Mar. 266
Delayed coking flowsheet. Feb. *142
Four new ways to manufacture high B.t.u. gas from coal. Aug. *104
Gasifying coal underground. J. V. Hightower. Apr. *107
1946 production of coal tar chemicals at byproduct coke plants. Aug. 300
Oxygen-anthracite gas produced in British Columbia (N). Apr. 186
Oxygen gasification of anthracite. Wright & Newman. June *114
Recent developments in fuel technology—report. Apr. *127
South Africa considers large project for production of oil from coal. Aug. 198
Study of coal gasification now under way near Pittsburgh (N). Apr. 173
Tar acids, continuous fractionation of (A). Mar. 266
Tar emulsions. July 117
Western production of coal chemicals (table). Sept. 100
Columbia—ceramics in Colombia (A). Jan. 256
New alkali plants to be built. Sept. 200
Combustion—combustion calculations for hydrocarbon fuels. Linden & Othmer, pt. 1, Apr. *115; pt. 2. May *148
Compressors—process engineer's guide to the centrifugal compressor. I. J. Karasik, pt. 1, Oct. *110; pt. 2, Nov. *132; pt. 3. Dec. *126
Concrete:
Air entrainment in concrete (A). Feb. 272
Concrete and transit used in handling hydrogen peroxide. Reichert & Pete. Apr. 220
Refractory concrete. Mar. 187
Condensers—Condenser bypass improves tower pressure control. L. J. Governale (P.N.). Apr. *126
Condensers and ejectors. D. H. Jackson. May *123

Construction:

- Building costs May 111
 Calculating payout time for equipment investments. W. H. Buell Oct. 97
 Considerations in industrial plant site cost. O. E. Sieder May 117
 From the remains of the giant government plant springs a group of chemical plants. T. B. Gibson Dec. *132
 Plant design for minimum cost. G. A. Bryant *113
 Process equipment cost estimation. May *107-138
 Containers—supplies low (N) May 96
 Control chart for industrial tests (A) July 268

Controllers:

- Adapting a differential pressure controller to wide-range interface control. J. G. Kirkpatrick (P.N.) Mar. *121
 Automatic reflux control and timer for pilot plant distillations. Grossberg & Roebuck (P.N.) Jan. *132
 Continuous viscosity measurement. W. A. Diamant Nov. *136
 How a series of fixed, accurate pressures can be maintained on a processing system. W. R. Swenson (P.N.) Aug. *120
 Viscosity measurement—oil industry's tool. D. J. Pompeo Nov. *113
 Conveyors—spray protection for conveyor openings (P.N.) Sept. *137
 Coolant, grinding Aug. 164
 Cooling towers—evaluating performance of cooling towers. J. G. De Flon July *112
 Coordinates—rectangular coordinates for three variables. A. S. Smith (P.N.) Mar. *123
 Rectangular coordinates for three variables. Bethes, Dale & Twitchell (c) A. S. Smith July 196
 Copper—copper alloys for handling hydrogen peroxide. Reichert & Pete. Apr. 218
 Corn refiners charged by PTC Aug. 80
 Corneba used to make nylon. S. D. Kirkpatrick Apr. *100

Corrosion:

- Acetic acid and chlorine vs. materials of chemical plant construction May 241
 Anti-corrosive finish June 158
 Corrosion control for gas mains. W. H. Tell (P.N.) Mar. *123
 Corrosion preventives May 190
 Corrosion resistance of steel and cast iron. A. W. Spitz Feb. 135
 Diaphragm control valves. A. J. Koch June *207
 Hydrogen peroxide, structural materials, manufacture and uses. Reichert & Pete. Apr. *213
 Liquid piston pump simulators handling of corrosive gases and liquids. G. E. Haddeland (P.N.) Sept. *136
 Liquid rust remover May 196
 Measuring flow rate of corrosive solutions. F. A. Mitchell (P.N.) Nov. *146
 Producing formaldehyde resin for anti-corrosion cement June *110
 Resistance of impervious graphite (table) C. E. Ford pt. 1, Jan. *92; pt. 2 Feb. *93
 Sodium chloride versus construction materials—symposium pt. 1, Oct. *211; pt. 2, Nov. *217; pt. 3, Dec. 225
 Sulphur dioxide vs. materials of chemical plant construction pt. 1, July *221; pt. 2, Aug. *209; pt. 3, Sept. *209
 Wet and dry chlorine vs. materials of chemical plant construction—symposium pt. 1, Jan. *211; pt. 2, Feb. *219; pt. 3, Mar. *213

Costs:

- Building costs May 111
 Centrifugal separator costs. Henry Eckhardt May 121
 Complete ammonia plants. C. O. Brown May *124
 Cost relationships in preliminary cost estimation. H. J. Lang Oct. 117
 Data for equipment cost estimates. Harding Bliss pt. 1, May *126; pt. 2 June *100
 Determining costs of tanks, spheres and drums. R. A. Dickson Aug. *122
 Ejectors and condensers. D. H. Jackson May *123
 Engineering approach to preliminary cost estimates. H. J. Lang Sept. 130
 Equipment cost indexes for process industries. R. W. Stevens Nov. *124
 Equipment costs. C. A. Hampel (c) Oct. 192
 Estimating cold insulation costs. F. C. Otto May 118
 Estimating installations of chemical equipment. J. R. Behrens July 106
 Estimating magnesia insulation costs. F. C. Otto (tables) Sept. *126
 Estimating mineral wool insulation. F. C. Otto (tables) July 102
 Estimating spray dryers May 126

- Estimation of field erected tanks. L. E. Fox Aug. *100
 Estimation of instrument costs. D. M. Connelley July 108
 How "N" system simplifies piping cost estimation. R. A. Dickson (charts) Nov. 121
 Indexes in the plant cost picture. (charts & table) May 109
 Plant design for minimum cost. G. A. Bryant May *113
 Price and cost—an analysis. Henry Eckhardt May 108
 Process equipment cost estimation report May *107-138
 Refrigeration costs May *125
 "Six-tenths factor" aids in approximating costs. Roger Williams, Jr. Dec. 124
 Standardizing cost data on process equipment. Roger Williams, Jr. June *102
 Unit cost of some complete plants. B. H. Wilcoxon May 112
 Vibrating screen estimation. H. L. Bullock June 97
 Cream, protective Oct. 174
 Credit swiping nurses hidden losses. B. H. Hopkins July 110
 Curare for polio (A) Feb. 262
 Czechoslovakia—chemical production geared to top 1937 volume Oct. 209
 Glass production increased June 204

D**DDT:**

- DDT insecticides (A) Nov. 178
 DDT may poison the butter (A) Nov. 242
 Emulsion concentrate June 166
 Whitewash June 166
 Won't hurt livestock (A) Nov. 242
 Dead Sea—extraction of chemicals from sea brine by utilizing solar energy. Ze'ev Halperin June 168
 Dehumidifying agent July 168
 Density and temperature measurement by continuous flow device. N. C. Updegraff (P.N.) July *121
 Deodorant Aug. 160
 Depreciation should be more realistic (ed) Oct. 126

Detergents:

- Emulsion-type detergent May 188
 Household detergents Sept. 178
 Outlook for synthetic detergents (A) Apr. 266
 Synthetic detergent (A) Dec. 178
 Diethyl sulphate reaction with methyl diphenylamine (A) June 270
 Directory of professional, scientific, technical and trade associations and societies July 234
 Disinfectant, non-poisonous June 166

Distillation:

- Distillery byproducts (A) Apr. 258
 Distillery problems (A) Aug. 258
 Multistage molecular still Apr. *119
 Recent advances in fermentation report Dec. *141
 Dithioglycol (A) Mar. 163
 Divider, proportional interval, used for chart reading and drafting. R. B. Bennett (P.N.) Dec. *138
 Divinylacetylene—ethoxy derivatives (A) May 298

Drugs:

- New painkillers (A) Sept. 269
 New penicillin plant now operating in Mexico Oct. *108
 Pacific Coast production of organic medicinals Sept. 104
 Patents and prices (A) Jan. 248
 The story of streptomycin Nov. *97
 Drying—dryer for instrument air. Donald Rushmore (E.N.) June *120
 Estimating spray dryers May 126
 Durimet, chlorimet used for chlorine gas. J. L. Traub Mar. 213
 Durimets T and 20 used for sulphur dioxide equipment. W. A. Watkins. Aug. 209

Dust and Fume Handling:

- Filter type dust collectors. L. J. Weischhaus Aug. *113
 Floating fume blanket (P.N.) May *168
 Fume scrubber effective on lined oil kettles. J. C. Dittmer Mar. *110
 Portable ventilated tunnel aids in discharging kettle contents when toxic gas is produced. F. A. Mitchell (P.N.) May *156
 Dyes—dyeing agent (A) Feb. 163

E**Economics:**

- International outlook—Russia, Mexico, France, China, Great Britain, India, Germany, Australia, Spain *100
 What's ahead for American business. Keeser & Wilson (charts) Feb. *94
 What's happening in world markets? J. F. Chapman Feb. *98

Editorials:

- Age 106 years Aug. 119

Silicones:

New engineering materials (A)	Apr.	274
Resistance to chlorine water, J. A. McHard	Feb.	219
Sodium chloride versus construction materials, J. A. McHard	Oct.	216
Sulphur dioxide vs. materials of chemical plant construction, J. A. McHard	July	224
Utility in electrical construction (A)	May	296
Silk—U. S. promotes silk (N)	Aug.	78
Syrups—decoloration of sugar syrups (A)	Feb.	274

Soap:

Continuous process for soap, G. W. McBride	Apr.	*94
Continuous soapmaking flowsheet	Apr.	*134
Outlook for synthetic detergents (A)	Apr.	266
South African plants developing ways to make soap from sewage	Feb.	202
Soda ash—distribution and production of caustic soda 1921-1945 (charts & tables)	Feb.	110
Western production of soda ash (charts & table)	Sept.	88
Sodium carboxymethylcellulose (A)	Dec.	177
Sodium chloride—sodium chloride versus construction materials—symposium pt. 1, Oct. *211; pt. 2, Nov. *217; pt. 3	Dec.	225
Sodium peroxide—bleaching groundwood-sulphite pulp, J. A. Lee	Oct.	*92
Sodium sulphates—western producers of salins and salts (table)	Sept.	99
Solar energy used to evaporate Dead Sea brine, Ze'ev Halperin	June	*94

Solvents:

Aromatic solvents	June	168
Flowsheet for solvent recovery with activated carbon	Jan.	*136
Organic solvent	Jan.	162
Progress in solvent recovery	Jan.	162
Sorbic acid (A)	Apr.	162
Sorbitol from corn sugar by catalytic reduction, R. W. Porter	Nov.	*114

South Africa:

Chrome chemicals may be produced	July	216
Large project for production of oil from coal under consideration	Aug.	198
Tanning time reduced by new wattle process	Aug.	204
Southwest—new skyline for the old Southwest, J. V. Hightower (picture feature)	Nov.	*104
Southwest and West are entering industrial era (A)	May	286
Southwest Research Institute plans Houston laboratory (N)	Oct.	190
Spain—chemical industry, Karl Falk	Feb.	107
Spectrometer—detecting leaks, J. E. Burroughs	Apr.	*112
Stabilizers—libasic lead stearate (A)	Mar.	164
Stabilizer for vinyls	June	157
Starch, allyl (A)	June	234
Starch, commercial	Sept.	170
Starch, vulcanized	June	160
Static dissipating device (P.N.)	Oct.	*129
Statistics should be taught (A)	June	266

Steel:

Corrosion resistance of steel and cast iron, A. W. Spitz	Feb.	135
Glass-lined steel for handling sulphur dioxide, O. I. Chormann	Sept.	224
Glass-lined steel used for handling wet and dry chlorine, O. I. Chormann	Feb.	226
Iron and steel as materials for handling sodium chloride, A. W. Spitz	Oct.	211
Oxygen in steel making (A)	July	254
Pacific Coast iron and steel industry (table)	Sept.	109
Properties of low carbon, 8% percent nickel steel (A)	Nov.	246
Stainless steel as a material for handling hydrogen peroxide, Reichert & Pete	Apr.	214
Stainless steel as material of chemical plant construction	May	241
Stainless steel for handling sulphur dioxide	Sept.	214
Stiffening agent (A)	Nov.	182
Stockpiles—strategies for dollars (N)	Nov.	76
Will quality suffer? (N)	May	92

Stoneware:

Chemical stoneware for handling sulphur dioxide, F. E. Herstein	Sept.	216
Chemical stoneware to handle chlorinated Farkas, Herstein	May	218
Chemical stoneware used for chlorine gas, F. E. Herstein	Mar.	216
Streptomycin development	Nov.	*97
Streptomycin nutrient (A)	Dec.	182
Strontium—Mexican strontium (A)	Apr.	292
Styrene manufacture (A)	June	272

Sugar:

Best sugar production in the Western States (chart)	Sept.	*106
Ion exchange report	July	*122

Sorbitol from corn sugar by catalytic reduction, R. W. Porter	Nov.	*114
Sulphur—new skyline for the old Southwest, J. V. Hightower (picture feature)	Nov.	*104
Production of sulphur and sulphuric acid 1944-1946 (charts & tables)	Feb.	108
Sulphuric acid—production of sulphur and sulphuric acid 1944-1946 (charts & tables)	Feb.	108
Western production of sulphuric acid (tables)	Sept.	96
Sulphur dioxide—sulphur dioxide vs. materials of chemical plant construction pt. 1 July *221 pt. 2 Aug. *209 pt. 3	Sept.	*208
Supersonic testing (A)	Oct.	250
Surface active agent	May	192

Surplus property:

From the remains of the giant government plant springs a group of chemical plants, T. B. Gibson	Dec.	*132
---	------	------

Sweden:

Chemical industries increased facilities of research laboratory during war years	Apr.	198
Cyclotron laboratory for university	May	232
Penicillin plant begins operation	July	216
Symbols—standard symbols for chemical engineers, J. H. Perry	June	112

T

Tanks:

Chlorine tanks rubber lined, O. S. True	Feb.	222
Determining costs of tanks, spheres and drums, R. A. Erickson	Aug.	*122
Estimation of field-erected tanks, L. E. Fox	Aug.	*106
Gradient temperature coolant storage tank for variable load refrigeration systems, F. L. Stannard (P.N.)	Nov.	*141
Gunite-lined tanks save on thickener cost (P.N.)	Dec.	140
Insulating unheated plants, David Lee Von Ludwig	Mar.	*114
Level indicator for tank structures, F. C. Ziemer (P.N.)	June	*119
Storage tank design, J. G. Henderson	Mar.	*194
Tank barges to deliver liquid chlorine (N)	Oct.	170
Wood tanks for handling sulphur dioxide, S. E. Chaney	Sept.	218
Wood tanks used in handling wet and dry chlorine, S. E. Chaney	Feb.	202

Tantalum:

Tantalum for handling chlorine gas, L. R. Scribner	Feb.	219
Tantalum for handling hydrogen peroxide, Reichert & Pete	Apr.	216
Tantalum for handling sodium chloride, L. R. Scribner	Dec.	232
Tantalum for handling sulphur dioxide, F. L. Hunter	Sept.	210
Tariff revisions (N)	Nov.	80
Taxes—depreciation claims (N)	Jan.	92
Technical writing, D. S. Davis	Jan.	92
Technology—going to full scale with fewest headaches—report, F. H. Swezey	Oct.	*131
Temperature—chart for calculating reaction time changes, Harrison & Setzler (P.N.)	Apr.	*125
Conversion of temperature aided by diagram, B. H. Sanders (P.N.)	Nov.	*145
Texas—chemical expansion in Southwest	Apr.	*110
Round-up of the postwar chemical plant construction boom, J. V. Hightower (picture feature)	Nov.	*104
Textile chemicals (A)	Mar.	168
Therapeutic chemicals (A)	Feb.	167
Thermometer and hydrometer measure density and temperature, N. C. Updegraff (P.N.)	July	*121
Thiophene derivatives (A)	Apr.	156
Timers—Automatic reflux control and timer for pilot plant distillations, Grossberg & Roebuck (P.N.)	Jan.	*132
Tin—addition agent for electrolytic refining of tin (A)	Jan.	244
Tin as a material for handling hydrogen peroxide, Reichert & Pete	Apr.	216

Tires:

Anti-static powder (A)	Apr.	164
Tire for trucks has wire in rubber	May	158
Tire releasing compound (A)	Apr.	158
Toluene—best way to make (A)	June	244
Toluene oxidation (A)	July	264
Tomatin, a new antibiotic (N)	May	98
Trade charter drafted	Oct.	89
Trade Mark Act or the Lanham Act (A)	Mar.	262
Trade mark law	June	80
Triptane process (A)	June	250
Trucks—cracking chemicals (N)	Aug.	84
Truck crane eliminates plant bottleneck (P.N.)	Jan.	*133

Tubing, polyethylene (A).....Nov. 178
Turpentine—distribution and supply of
turpentine and rosin 1945-1946
(table).....Feb. 121
Pine gum processing labor and fuel
costs. Poole & Patton (table).....Aug. 102

U

Ultrasonic investigation of molecular
properties (A).....June 246
United Kingdom and Eire—sulphuric
acid production.....Sept. 202
U. S. Army preparedness plants (N) Sept. 80
U. S. Census seeks consumption data (N) July 80
Uranium—chemical hazards of uranium
handling (A).....Jan. 236
Uruguay—caustic and soda ash trade
regulated.....June 202

V

Vacuum:
Calculations for high vacuum systems.
W. P. Dryer pt. 1, Nov. *127;
pt. 2.....Dec. *122
High vacuum and its process applications.
B. W. Whitehurst.....Oct. *98
Vacuum alarm and signal. P. C. Ziemke
(P.N.).....Aug. *121

Valves:
Automatic valves for control of
small flows of acids or other corrosive
materials. K. E. Kunkel (P.N.).....July *120
Diaphragm control valves. A. J. Koch
.....June *207

How a series of fixed, accurate pressures
can be maintained on a processing system.
W. R. Swenson (P.N.).....Aug. *120
Vanadium oxide catalyst (A).....May 294
Vapor pressures—nomographic chart for
vapor pressures. I. J. Hooks (P.N.)
Jan. 134
Vaporization—quarter circle rule for
latent heats. J. R. Hopkins.....July *111
Venezuela—oil production in 1946 (A)
Sept. 270

Vinyl:
Reaction of vinyl ethers and esters
with benzene (A).....July 264
Vinyl cyclohexene.....Sept. 170
Vinyl ethers.....Oct. 172
Vinyl yarn (A).....Apr. 166
Viscosity, continuous, measurement. W.
A. Diamant.....Nov. *136
Vitamins—determination of vitamin B
(A).....Jan. 260
Multistage molecular still.....Apr. *119

W

Washers, nylon.....June *162
Waste Disposal:
German waste treatment.....July 94
Limestone used to neutralize acid
wastes. A. L. Reid.....July *100
New pollution study (N).....July 78
Paying for pollution (ed).....Sept. 135
Pickle liquor byproducts (A).....June 260
Stream pollution problem (A).....Aug. 218
Water—Kane water collector who
there's a way there's a well.....Aug. *120

Waterproofing test.....Nov. 82
Water-shedding film (A).....Nov. 184
Water treatment—ion exchange report
July *123
Wax—micro-crystalline wax (A).....Apr. 162
Weather and industry (N).....May 96
Western chemical producers since 1941
(table).....Sept. 105
Western chemical producing industries
(tables).....Sept. 96-115
Western chemical production in 1946
(table).....Oct. 290
Wetting agent (A).....Apr. 170
Wetting agent for gummed tape (A)
Apr. 168
Wetting agent, synthetic.....June 164
Wheat decay prevention by organomer-
cury complexes (A).....Apr. 281

Wood:
Advances made in wood utilization
(N).....July 186
New process for wood distillation
(A).....Jan. 238
Pentachlorophenol for wood preser-
vation (A).....Oct. 260
Wood byproducts.....Sept. 174
Wood used for handling hydrogen
peroxide. Reichert & Peto.....Apr. 218
World markets—what's happening. J.
F. Chapman.....Feb. *98
Worthite used for handling sodium chlor-
ide. W. E. Pratt.....Oct. 211
Worthite for handling wet and dry chlor-
ine. W. E. Pratt.....Feb. 219
Worthite—sulphur dioxide vs. materials
of chemical plant construction.
W. E. Pratt.....July 221
Yeast—Recent advances in fermentation
report.....Dec. *141

Author's Index

ALLEN, Harold D. & C. J. Marsel. Fatty
acid processing.....June 104
Aries, Robert S. & H. H. Atlas. Vinyl
resins as consumers of C_2H_2 and
 C_2H_4Mar. *101
Armstrong, Wallace F. Construction on
materials in Mannheim HCl plant
Aug. *96
Arrance, F. C. & D. E. Richardson.
Cleaning device maintains water-
cooled burners at maximum effi-
ciency.....Oct. *128
Atlas, Hilton H. & R. S. Aries. Vinyl
resins as consumers of C_2H_2 and
 C_2H_4Mar. *101

- Verink, E. D., R. H. Wagner & R. H. Brown. AluminumAug. 210
- Von Ludwig, Davidlee. Insulating un-housed plantsMar. *114
- WAGNER, R. H., E. D. Verink & R. H. Brown. AluminumAug. 210
- Watkins, W. A. Durimets T and 20.....Aug. *209
- Watson, F. G. Shell succeeds in producing acrolein.....Dec. *107
- Weischhaus, L. J. Filter type dust collectorsAug. *113
- Werkling, L. C. Carbon graphite.....Feb. 224; Sept. 223; Nov. 218
- Whitehurst, B. W. High vacuum and its process applications.....Oct. *98
- Whittum, J. B. Vacuum dispenser for discharging carboysMar. *122
- Wilcoxon, B. H. Unit cost of some complete plantsMay *112
- Williams, Roger J. Standardizing cost data on process equipment.....June *102
- "Six-tenths factor" aids in approximating costsDec. 124
- Wilson, John D. & D. M. Keizer. What's ahead for American business.....Feb. *94
- Winship, W. W. Vitreous silica.....Feb. 219
- Wright, C. C. & L. L. Newman. Oxygen gasification of anthracite.....June *114
- ZIEMKE, Cpl. M. C. Durable carrier made for acid bottles.....Sept. *138
- Submersion method simplifies miter joint layoutNov. *146
- Ziemke, Paul C. Dependable type of vacuum alarm.....Aug. *121
- Level indicator for tank structures.....June *119
- Rugged sampling bottle made from scrapMay *158
- Using neon glow lamp for level indicationOct. *130
